

Sinclair Broadcast Group is instructing their 62 local stations, many in battleground states, to preempt regular programming to air a Kerry smear piece two weeks before the election. This unprecedented move would be direct electioneering by a corporate media giant -- and against federal election law.

I am writing to request that you stop Sinclair from airing "Stolen Honor," unless they agree to also show "Going Upriver" shortly after - and before the election.

Sinclair stations use public airwaves free of charge, and are required by law to serve the public interest. One-sided programs like "Stolen Honor" do not serve the public, and are harmful to our democracy.

Thank you.

Mollie Traub
